

CARRIAGE MANOR PICKLEBALL CLUB

What do you get when you cross the games of badminton, ping pong and tennis? It's one of the fastest growing games in the country - Pickleball. This is a game which is "easier on the body and on the joints". Both the paddle and ball are light, therefore there are fewer impacts or elbow injuries.

Carriage Manor Pickleball Club currently has four new courts. These courts were designed to ensure the dimensions met the tournament standards. The Club members feel that we have the finest of courts in the East Valley with the greatest folks who love to teach newcomers to the game.

The game of Pickle ball involves an underhand serve and limited running, making this an ideal sport for the young "mature" person. Played with an oversized paddle, one can become a "Wimbledon Wonder" without too much effort!
